

# How To Create A Home Inventory For Insurance

A home inventory is a list of everything in your home, starting from small equipment to furniture. It is required so that you can claim your insurance, in case your house gets damaged due to any reason under your coverage option. Here are some tips to create an inventory for insurance.

## Start With The Recent Purchases

Make a note of all the things that you have bought recently along with their prices.

## Focus On The Expensive Items

For items like jewelry whose market value keeps on changing, make sure that you mention the updated market price.

## Take High Quality Pictures

You may include pictures of the listed products. This will help you showcase the condition of the item as well.

## Make A Video

Use a good camera to make video of your house and capture all the furniture, electronics and other equipment.

## Use Digital Media To Make A List

Use computer or a tablet to make list of your possessions. It will save your time and there will be least chance of misplacing the list.
